

Migration from Brio to OBIEE

Client:

The Client is a global communications giant with a passion of being the best and at the top when it comes to performance and customer satisfaction.

A very high level of analysis and reporting tool was required for voluminous data. So, the client had decided to move to Oracle Business Intelligence.

Infomatics solution:

- OBI team had to understand the current reporting tool being used (Here Brio Intelligence).
- Migrate the current reports to OBIEE platform.
- Task resolved by the OBIEE offshore team
- A team of 8 members were working off-shore to achieve the same.

Client's Feedback:

Client feedback for the Analysis and Design phase was Excellent. They had clearly appreciated our efforts and outcome of the project.
